How to Get an American Foxhound and Why

Part A
400 years ago there was no such thing as a foxhound! How did they get here?

Part B

- English Foxhound
- American Foxhound

Part C
- Dogs are part of a single species, *Canis familiaris*.
- There are over 400 different breeds of dogs.
- A breed is a subspecies. It takes many generations to get a new breed.
- Many breeds today are a result of *artificial selection / selective breeding*.
